HD60

STANDARD RESOLUTION FIXED LENS DAY/NIGHT FIXED DOME CAMERA WITH INFRARED ILLUMINATORS

The Performance Series rounds out Honeywell's camera portfolio with a variety of indoor, outdoor and low light cameras that lets end users pick the perfect camera for virtually any installation. Ideal for a diverse range of applications, the Performance Series includes a wide range of high performing IR bullet cameras and mini-domes that are easy to install and even easier to use.

The HD60 is a day/night camera that switches from color to black and white mode depending upon available light. The HD60 incorporates a 1/3" CCD that offers 380 TV lines of crisp, clear horizontal resolution. The cameras come equipped with 24 integrated LEDs, a built-in fixed lens (f=4.0 mm) and a 3-D axis gimbal that is capable of 360° of pan, 180° of tilt and 360° of horizontal rotation. In addition, the lens is separated from the LEDs by a boot mechanism which eliminates internal IR glare.

The HD60 integrates a camera, lens and LEDs into a one piece compact unit which can be ceiling or wall mounted for fast and easy installation. It is attractive and unobtrusive yet provides a crime-deterring presence round-the-clock with its excellent low light imaging protection. It comes standard with a two-conductor pigtail that connects to the barrel connector so there is no need to cut wires during installation. It also features a video out port for easy focus. The HD60 is designed for use in challenging environments.

Market Opportunities

The HD60 is a cost effective surveillance solution for applications that experience changing light conditions throughout the day. The HD60 offers a simple yet solid design that provides optimum performance for all indoor applications including lobbies, schools, commercial, residential or hotel lobbies – anywhere surveillance must be discreet.

Features

- Standard resolution color: 380 TVL 1/3" Sony Super HAD CCD
- Day/night with 24 LEDs
- Built-in fixed lens (f=4.0 mm)
- ABS dome and acrylic housing
- Photocell-controlled and powered by an array of 24 high-efficiency LEDs (850 nm)
- User-friendly design for easy access and adjustment of camera settings

- Even distribution IR for optimal image capture
- Total effectiveness in zero lux environments
- IR LED visible range of 50 ft. (15m)
- 3-D axis gimbal
- Video out port for setup
- Two-conductor pigtail is standard for connection to barrel connector
